

GIORNATE ITALIANE DEL CALCESTRUZZO ITALIAN CONCRETE DAYS

Cena di Gala

In occasione del GIC avrà luogo una cena di gala per gli espositori e la loro clientela. Collateralmente alla fiera verrà organizzata la seconda edizione degli **ICTA Italian Concrete Technology Awards** che sarà organizzata in una location di grande prestigio anche dal punto di vista storico-culturale dove, tra i profumi della cucina locale e i pregiati vini della provincia, i partecipanti della mostra piacentina avranno modo di incontrarsi in un'atmosfera conviviale e rilassata.

Gala Dinner

On the occasion of the GIC show there will be a gala dinner for the exhibitors and their customers. Alongside with GIC, the ICTA Italian Concrete Technology Awards event will take place in a location of great prestige, also from the historical and cultural point of view, where - among the scents of local cuisine and fine wines of the province - the participants of the Piacenza exhibition will have the opportunity to meet each other in a convivial and relaxed atmosphere.

THEMATIC AREAS

Focus espositivo dedicato alle macchine, attrezzature, materiali e tecnologie per la posa, la manutenzione e il ripristino delle pavimentazioni in calcestruzzo.

Exhibition focus on machines, equipment, materials and technologies for laying, maintenance and restoring of concrete floors and pavements.

Area espositiva tematica dedicata alle macchine, attrezzature e tecnologie per la demolizione, la decostruzione, il riciclaggio delle strutture in cemento armato.

Thematic exhibition section dedicated to machinery, equipment and technologies for demolition, deconstruction and recycling of reinforced concrete structures.

PRODUCT SECTORS

1. Abrasion-resistant steels
2. Admixtures and binders
3. Aggregate processing plants and equipment
4. Aggregate washing equipment
5. Aggregates (production and sales)
6. Aggregates (production and trade)
7. Associations
8. Bulk cement tank trailers
9. Cement plants
10. Cements and grouts
11. Concrete corraction equipment
12. Concrete curing equipment
13. Concrete cutting saws
14. Concrete curing joints
15. Concrete paving equipment
16. Concrete pumping accessories
17. Concrete pumps (truck-mounted and fixed)
18. Concrete screeding equipment
19. Concrete steel reinforcement
20. Concrete trowel machines
21. Concrete vibrators
22. Consulting and engineering companies
23. Control and automation systems
24. Conveyor belts
25. Crushing equipment
26. Curb machines and equipment
27. Dosing and weighing systems
28. Fibers for concrete reinforcing
29. Fixed and mobile concrete batching plants
30. Fixed booms for concrete distribution
31. Floor grinders
32. Floor polishing equipment
33. Formworks
34. Grout injection pumps
35. Grouts
36. Insulating materials and coatings for concrete
37. Machinery and equipment for demolition, cutting and coring of reinforced concrete
38. Machinery, equipment and technologies for concrete pavement and flooring
39. Machinery, plant and equipment for the production of blocks, manholes, pipes, tiles
40. Machinery, plant and equipment for the production of concrete precast elements (walls, oors, slabs)
41. Machines, systems and equipment for lifting, handling and transportation of concrete products
42. Manhole frames and lids
43. Mixers
44. Mobile cranes
45. Mobile volumetric concrete mixers
46. Molds and formwork for precast concrete
47. Molds for pipes, manholes, blocks, tiles
48. Multidirectional scaffolding systems
49. Parts and accessories for precast concrete
50. Pigments for cements and concrete
51. Pre-mixed quartz
52. Prestressing equipment
53. Producers of precast concrete and concrete products
54. Production tables for precast elements
55. Rebar equipment
56. Rebar processing machinery and equipment
57. Reinforced concrete refurbishing equipment and technologies
58. Reinforcing steel for concrete
59. Release agents
60. Resin and polyurethane coatings
61. Self-loading mobile mixers
62. Service and maintenance rms
63. Shot blasters
64. Skids and storage systems
65. Software houses
66. Special binding products
67. Special steel for molds and formworks
68. Split-beam equipment
69. Surface treatment for concrete floors
70. Systems and accessories for mounting, connecting, fixing and anchoring of concrete elements
71. Systems and plants for water and sludge treatment
72. Systems for transport and distribution of concrete
73. Technical publishing
74. Technologies for packaging of concrete products
75. Testing equipment
76. Tower cranes
77. Truck mixers
78. Ueidentity control systems
79. Universities and research centers
80. Vibrating screens for aggregates

Conferenze e Seminari Tecnici

Collateralmente alla parte espositiva del GIC è previsto un ampio programma di convegni, workshop e seminari di grande interesse e attualità, la cui organizzazione sarà curata da primarie Associazioni e Istituzioni. Queste iniziative costituiscono, infatti, un importante momento di aggiornamento professionale, presentando nuove normative, tecnologie innovative ed anticipando le tendenze del mercato anche grazie alla collaborazione di alcune grandi aziende espositrici.

Conferences and Technical Seminars

Alongside with GIC there will be a wide program of conferences, workshops and seminars of great interest and relevance, whose organization will be looked after by leading associations and institutions. These initiatives are in fact an important opportunity for professional development, introducing new regulations, innovative technologies and anticipating market trends, thanks to the cooperation of some big exhibitors.

Macchine, attrezzature e impianti per l'estrazione, il trattamento, il riciclaggio e il trasporto degli interi.

Equipment and plants for extraction, processing and recycling of aggregates.
